International Relations

Dear comrades of KNE,

Considering there is no capitalism without crises,
Considering that imperialism might bear another world war,
Considering that the majority of the people(s) does not have any future in this system,
Our sole solution is to make an end to capitalism!
This world economic crisis puts this question more concretely: socialism or barbarism!

Greece's working class unimpeachably strides ahead for the European proletariat in the struggle against this crisis. Particularly for the youth, this struggle is essential. It is the youth that is disbanded en masse, faces the cutback of wages. There is a whole generation of young people whose future is wrecked by imperialist barbarism.

One of the imperialist barbarians – German imperialism – makes a major contribution to exploit and shift this crisis to the Greek population. The EU financial sanctions against Greece, which fundamentally denies the Greek sovereignty, were mainly driven forward by the German government. Whereas the German government refuses to slowdown the financial cutbacks, it simultaneously forces Greece to buy the bomber Eurofighter from the military syndicate located in Hallbergmoos (Germany)¹. One year ago, the German government supplied Greece with CS-gas to combat Greece's demonstrators. What will be the next imperialist step, also in regard of the military dictate called Lisbon Treaty?

Therefore, we say NO to:

- A European Union under the hegemony of German imperialism!
- An entire debt cancelation for Greece!

We, the FDJ, have got to know this Germany of annexations, and in times of a world economic crisis it is another opportunity for German imperialism to deny the sovereignty of nations to smash, to occupy, to annex them.

We won't stop agitating against German imperialism and we won't stop fighting it!

‘Cause those who realise their situation who ought to stop them? (Bertolt Brecht)

Our solidary greetings to the general strike from February 10th, 2010 and your ongoing resistance!

Comradely yours,

FDJ

February 21st, 2010
