

Whether in Palestine, Israel or elsewhere

Put an end to the war against the peoples!

On the back of the Jewish people and in the shadow of the bombing of Gaza, a German nationalist community is coming together. The AfD, the CDU/CSU and the "traffic light" coalition are uniting in a racist coalition of screams for war and murder against the peoples of Gaza and the the mediterranean sea. The police state marches through the streets, the police truncheon ensures peace and order. The entire racist coalition agitates against Arab, Persian and African migrants, refugees and young people. The legal descendants of the builders of Auschwitz still have the audacity to wash their hands of the situation. They have made German imperialism powerful again with the riches of fascist world war barbarism, with wealth and capital stolen through occupation, mass murder and Aryanization. This imperialist village, of which the whole world knows that its current wealth, power and arrogance only exist because the crimes of Hitler, Göring and Goebbels were simply swept under the carpet. Because the funders of fascism and war, the big corporations and banks, were never touched. Instead, they revised the post-war order by annexing the GDR and subjugating Europe under the German EU.

The antisemitism in this country is still German, Germanic, supremacist. But in the land of murderers and executioners, of all places, the specifically German ideology is to be blamed on others in order to commit the next crimes in a new disguise and with "never again". The superior German once again defines "good" and "bad" and only he can use his antisemitism, his crimes, to imprison people in the name of the "reason of state" against antisemitism, to ban art, to discipline in schools, to publish membership lists of the most delicate resistance in the newspapers and to dictate thinking in the sense of the never-touched organizers of German fascism.

But it is the never-touched ones who carry the destruction into the world. They command fascist murder gangs like Azov, equipped with German tanks and missiles. They are the second largest supplier of the constant murder and destruction in Ukraine. They have left Afghanistan in ruins. But their reign is crumbling. The consortium of the old imperialists is crumbling. Whether the old world will perish in world war or revolution, barbarism or liberation, is up to the working class and the peoples.

Hamas has done great damage to the struggle of Palestine and the entire Arab National Liberation Movement. Their attack has left the people defenseless and unprotected. Islamism has proven once again that it leads the people into false battles against themselves. This pillar of Arab reaction is nothing but a helper of imperialism. Without the program of people's republic and nationalization, there is no liberation and no justified war. Gaza City is in flames, a city of millions is sinking into the chaos of a siege. The bombs hail, the sirens wail, thousands dead, thousands injured. Every second victim of this war - a child. The roads are closed. The cauldron is closed. This rebellious and indomitable people wants to refuse, wants to resist the violence, as they did at the fence, at the wall, at the checkpoints. But they have two enemies: The merciless bombs of the Israeli bourgeoisie and the truncheons of the feudal Hamas.

A people that oppresses others cannot be free itself. This determines the class struggle of the workers in Israel, who can only end this war in a revolutionary way in the struggle against their own bourgeoisie and together with the people of Palestine. But the possibility of these two peoples living together in peace is solely a question of property, first and foremost the ownership of land.

The peoples will find the way to their liberation. They will chase away their false leaders and reactionary governments. Our task is to put a stop to this German war government. The peoples are counting on us. They are counting on us because our weakness in not preventing Auschwitz made Israel necessary. They are counting on us to defeat this German imperialism. That no German-made rockets, shells and tanks can stand against them. They are counting on us to stop standing by idly and watching the open reaction, the fascists and their consorts in this country, to finally ensure that citizens of all faiths and backgrounds do not have to fear being locked up in camps or having their roofs set on fire by a mob every day! They are counting on us to ensure that the mobilization of the German armed forces with compulsory service and conscription, which is drawing ever closer, ends in a disaster of revolting, army-destroying youths. They are counting on us because every smaller and larger war zone in the world shows how close world war is. And they know that the working-class youth of all countries can only defeat the war with revolution in a joint struggle. They are counting on us so that the German capitalists can no longer be sure of their home front, which has been silent for so long.

Let's put an end to the war against the peoples! We have plenty to do!
